SEA PEARL NATURAL SEAWEED POWDER

Sargassum SP.
Extract
(100% Pure Quality)

As a basal feed, seaweed extract powder improves soil structure and promotes natural flora and fauna. As a primary use, it is an excellent supplement to chemical fertilizers. It adds humus to the soil. It improves soil fertility as nutrients and hormones are directly available to plants in their natural form.

FEATURES :

- A) Salinity drought and freezing stress tolerance.
- B) Growth by modulating phytohormones.
- C) Increases nutrient uptake.
- D) Regulate expression of stress - responsive genes and miRNA.
- E) Improves root morphology and nutrition.
- F) Activates soil microbial population and improves soil health.
- G) Increases water holding capacities of earth.

DOSE :

Use 5 Kg per hectare (Drip Irrigation).

APPLICATION :

Drip irrigation : 5 kg of natural Seaweed Powder in 500 ltrs of Water for per hectare of land.

Approved input for use in organic agriculture according to NPPOP standard attested by EcocertIndia Pvt. Ltd. (NPPOP/IN/BI002)
